

IATF Oversight Certification Body Communiqué

Communiqué # 2007-003

DATE: April 16th 2007

	Yes	No
Confidential		X
Mandatory content		X

SUBJECT : “IATF Oversight Certification Body Communiqué” to replace “IATF Oversight Certification Body Advisory”

With the change of the term Advisory to Communiqué it is intended to provide IATF Oversight a formal process to communicate SIs, FAQs and general ISO/TS 16949 certification scheme related information to the IATF recognized Certification Bodies.

The intent is also to express clearly to the CBs if the information contained therein has to be assimilated into their processes, policies and procedures and what range of distribution of the information they will have to consider.

The IATF Oversight Certification Body Communiqué is a mean to quickly communicate such announcement to all the IATF recognized CBs.

IATF Oversight will maintain the option to classify the content of the communiqué in case of general scheme related issues as confidential and/or mandatory. In this case the document is to be very closely held and not to be copied and published.

The recipient will be the official IATF contact person at the certification body.
