

December 16, 2014

This morning, Chrysler Group LLC announced on the FCA supplier portal [eSupplierConnect](#) that it has changed its legal name to **FCA US LLC**. In a separate [announcement](#), Fiat Group Automobiles SpA stated that their name has changed to **FCA Italy SpA**. These coordinated name changes represent the latest phase of their alignment within their global parent company Fiat Chrysler Automobiles NV.

Over the next few months, other FCA Group companies will undergo a similar name change. Signage, documents and other corporate identifiers will be updated to display these new names. However, no new technical or administrative actions are associated with these changes. Existing Customer-Specific Requirements and other documents regarding ISO/TS 16949 issued by FCA US LLC and FCA Italy SpA remain in full effect. Please proceed with business as usual.

Thank you for your continuing support of ISO/TS 16949.
