ISSUE DATE: October 2019

SUBJECT: Notice of new IATF OEM Voting Member

The IATF continues to deliver its long-term vision through focus on its strategic imperatives. Under the “Global Growth” imperative, the IATF seeks to expand the breadth and depth of engagement with the scheme around the world through developing IATF targeted new OEM and National Automotive Industry Association relationships.

Consistent with its strategy, on 17th October 2019, in Enghien-les-Bains, France, the IATF unanimously voted to welcome Jaguar Land Rover (JLR), as Tata Motors Limited official designate, into the IATF as an OEM voting member. This marks a significant milestone in the history of the IATF as Jaguar Land Rover will be the first new member to join the IATF since its creation in 1999, and is a clear signal of IATF’s intent to boost the scheme’s growth around the world.

Jaguar Land Rover has shown continued commitment to the IATF scheme since 1999 and has widespread experience of gaining certifications for its global operations.

The inclusion of JLR into the IATF will contribute to the IATF’s capabilities as we prepare to embrace the challenges facing the automotive industry and ensuring the IATF scheme remains effective for today, and fit for the future.

Jaguar Land Rover’s nominated representative is Mr. Nigel Blenkinsop, Quality Director. His first official IATF Meeting will be January 2020.
